AUTHOR INDEX VOLUME 113

A

Adams, B. *See* Melliti, Meza, Fisher, and Adams.
Aldrich, R.W. *See* Ledwell and Aldrich.
—— *See* Ogielska and Aldrich.
Andersen, O.S. Editorial. 1.
—— Perspectives on ion channel assembly. 161
—— Perspectives on ion permeation. 763.
——, **and Cahalan, M.D.** The 52nd annual meeting and symposium of the Society of General Physiologists: Local calcium signaling in cell physiology. 153.

B

Bandarchi, J. *See* Sampath, Matthews, Cornwall, Bandarchi, and Fain.
Bao, H., Hakeem, A., Henteleff, M., Starkus, J.G., and Rayner, M.D. Voltage-insensitive gating after charge-neutralizing mutations in the S4 segment of *Shaker* channels. 139.
Bargiello, T.A. *See* Trexler, Bukauskas, Bennett, Bargiello, and Verselis.
Basavappa, S. *See* Bond, Basavappa, Christensen, and Strange.
Bellve, K. *See* ZhuGe, Tuft, Fogarty, Bellve, Fay, and Walsh.
Bennett, M.V.L. *See* Trexler, Bukauskas, Bennett, Bargiello, and Verselis.
Bennett, P.B. *See* Johnson, Mullins, and Bennett.
Benzinger, G.R., Tonkovich, G.S., and Hanck, D.A. Augmentation of recovery from inactivation by site-3 Na channel toxins: A single-channel and whole-cell study of persistent currents. 333.
Boheler, K.R. *See* Stern, Song, Cheng, Sham, Yang, Boheler, and Ríos.
Bond, T., Basavappa, S., Christensen, M., and Strange, K. ATP dependence of the $I_{Cl,swell}$ channel varies with rate of cell swelling: Evidence for two modes of channel activation. 441.
Bonev, A.D. *See* Pérez, Bonev, Patlak, and Nelson.
Brahmajothi, M.V., Campbell, D.L., Rasmusson, R.L., Morales, M.J., Trimmer, J.S., Nerbonne, J.M., and Strauss, H.C. Distinct transient outward potassium current (I_{to}) phenotypes and distribution of fast-inactivating potassium channel alpha subunits in ferret left ventricular myocytes. 581.
Bridges, R.J. *See* Devor, Singh, Lambert, DeLuca, Frizzell, and Bridges.
Bukauskas, F.F. *See* Trexler, Bukauskas, Bennett, Bargiello, and Verselis.
Burke, N.A., Takimoto, K., Li, D., Han, W., Watkins, S.C., and Levitan, E.S. Distinct structural requirements for clustering and immobilization of K^+ channels by PSD-95. 71.

C

Cahalan, M.D. *See* Andersen and Cahalan.
Callamaras, N., and Parker, I. Radial localization of inositol 1,4,5-trisphosphate–sensitive Ca^{2+} release sites in *Xenopus* oocytes resolved by axial confocal linescan imaging. 199.
Campbell, D.L. *See* Brahmajothi, Campbell, Rasmusson, Morales, Trimmer, Nerbonne, and Strauss.
Cannell, M.B., and Soeller, C. *Perspective:* Mechanisms underlying calcium sparks in cardiac muscle. 373. Correction. 761.
Cannon, S.C. *See* Vedantham and Cannon.
Catterall, W.A. *See* Eaholtz, Colvin, Leonard, Taylor, and Catterall.
Chandler, W.K. Perspectives on Ca^{2+} sparks. 363.
Chen, D.P. *See* Nonner, Chen, and Eisenberg.
Cheng, H. *See* Shirokova, González, Kirsch, Ríos, Pizarro, Stern, and Cheng.
—— *See* Stern, Song, Cheng, Sham, Yang, Boheler, and Ríos.
Christensen, M. *See* Bond, Basavappa, Christensen, and Strange.
Clapham, D.E. *See* Strübing and Clapham.
Colvin, A. *See* Eaholtz, Colvin, Leonard, Taylor, and Catterall.
Conti, F. *See* Saviane, Conti, and Pusch.
Cornwall, M.C. *See* Kefalov, Cornwall, and Crouch.
—— *See* Sampath, Matthews, Cornwall, Bandarchi, and Fain.
Covarrubias, M. *See* Jerng, Shahidullah, and Covarrubias.
Cowley, S. *See* Duan, Cowley, Horowitz, and Hume.
Crouch, R.K. *See* Kefalov, Cornwall, and Crouch.

D

DeLuca, A. *See* Devor, Singh, Lambert, DeLuca, Frizzell, and Bridges.
Devor, D.C., Singh, A.K., Lambert, L.C., DeLuca, A., Frizzell, R.A., and Bridges, R.J. Bicarbonate and chloride secretion in Calu-3 human airway epithelial cells. 743.
Ding, L. *See* Lu and Ding.
Ding, S., and Sachs, F. Single channel properties of $P2X_2$ purinoceptors. 695.
Duan, D., Cowley, S., Horowitz, B., and Hume, J.R. A serine residue in ClC-3 links phosphorylation–dephosphorylation to chloride channel regulation by cell volume. 57.

E

Eaholtz, G., Colvin, A., Leonard, D., Taylor, C., and Catterall, W.A. Block of brain sodium channels by peptide mimetics of the isoleucine, phenylalanine, and methionine (IFM) motif from the inactivation gate. 279.
Ehrlich, B.E. *See* Moraru, Kaftan, Ehrlich, and Watras.
Eisenberg, B. *See* Nonner, Chen, and Eisenberg.
Elmslie, K.S. *See* Lee and Elsmlie.
Eskandari, S. *See* Zampighi, Loo, Kreman, Eskandari, and Wright.

F

Fain, G.L. *See* Sampath, Matthews, Cornwall, Bandarchi, and Fain.
Favre, I., and Moczydlowski, E. Simultaneous binding of basic peptides at intracellular sites on a large conductance Ca^{2+}-activated K^+ channel: Equilibrium and kinetic basis of negatively coupled ligand interactions. 295.
Fay, F.S. *See* ZhuGe, Tuft, Fogarty, Bellve, Fay, and Walsh.
Fein, A. *See* Lu, Fein, Feinstein, and O'Rourke.
Feinstein, M.B. *See* Lu, Fein, Feinstein, and O'Rourke.
Fill, M. *See* Mejía-Alvarez, Kettlun, Ríos, Stern, and Fill.
Fisher, R. *See* Melliti, Meza, Fisher, and Adams.
Fogarty, K.E. *See* ZhuGe, Tuft, Fogarty, Bellve, Fay, and Walsh.
Frings, S. *Commentary:* Tuning Ca^{2+} permeation in cyclic nucleotide–gated channels. 795.

Frizzell, R.A. *See* Devor, Singh, Lambert, DeLuca, Frizzell, and Bridges.

G

Gillis, K.D. *See* Zeltwanger, Wang, Wang, Gillis, and Hwang.
González, A. *See* Shirokova, González, Kirsch, Ríos, Pizarro, Stern, and Cheng.
González, C. *See* Pérez-García, López-López, and González.
Green, W.N. *Perspective:* Ion channel assembly: Creating structures that function. 163.
Groblewski, G.E. *See* LeBeau, Yule, Groblewski, and Sneyd.
Guo, W. *See* Xu, Guo, and Nerbonne.

H

Hackos, D.H., and Korenbrot, J.I. Divalvent cation selectivity is a function of gating in native recombinant cyclic nucleotide–gated ion channels from retinal photoreceptors. 799.
Hakeem, A. *See* Bao, Hakeem, Henteleff, Starkus, and Rayner.
Han, W. *See* Burke, Takimoto, Li, Han, Watkins, and Levitan.
Hanck, D.A. *See* Benzinger, Tonkovich, and Hanck.
Hartzell, H.C. *See* Machaca and Hartzell.
Henteleff, M. *See* Bao, Hakeem, Henteleff, Starkus, and Rayner.
Hirsch, R.E. *See* Spalding, Hirsch, Lewis, Qi, Sussman, and Lewis.
Hivert, B., Luvisetto, S., Navangione, A., Tottene, A., and Pietrobon, D. Anomalous L-type calcium channels of rat spinal motoneurons. 679.
Horn, R. *See* Townsend and Horn.
Horowitz, B. *See* Duan, Cowley, Horowitz, and Hume.
Hume, J.R. *See* Duan, Cowley, Horowitz, and Hume.
Hwang, T.-C. *See* Zeltwanger, Wang, Wang, Gillis, and Hwang.

I

Immke, D., Wood, M., Kiss, L., and Korn, S.J. Potassium-dependent changes in the conformation of the Kv2.1 potassium channel pore. 819.

J

Jerng, H.H., Shahidullah, M., and Covarrubias, M. Inactivation gating of Kv4 potassium channels: Molecular interactions involving the inner vestibule of the pore. 641.
John, S.A. *See* Lee, John, and Weiss.
Johnson, J.P., Jr., Mullins, F.M., and Bennett, P.B. Human *ether-à-go-go*–related gene K^+ channel gating probed with extracellular Ca^{2+}: Evidence for two distinct voltage sensors. 565.

K

Kaftan, E.J. *See* Moraru, Kaftan, Ehrlich, and Watras.
Karpen, J.W. *See* Ruiz and Karpen.
Kefalov, V.J., Cornwall, M.C., and Crouch, R.K. Occupancy of the chromophore binding site of opsin activates visual transduction in rod photoreceptors. 491.
Keller, S.H., and Taylor, P. *Perspective:* Determinants responsible for assembly of the nicotinic acetylcholine receptor. 171.
Kettlun, C. See Mejía-Alvarez, Kettlun, Ríos, Stern, and Fill.
Kirsch, W.G. *See* Shirokova, González, Kirsch, Ríos, Pizarro, Stern, and Cheng.
Kiss, L. *See* Immke, Wood, Kiss, and Korn.
Klein, M.G. *See* Lacampagne, Ward, Klein, and Schneider.
Korenbrot, J.I. *See* Hackos and Korenbrot.
Korn, S.J. *See* Immke, Wood, Kiss, and Korn.
Kramer, R.H. *See* Molokanova, Savchenko, and Kramer.
Kreman, M. *See* Zampighi, Loo, Kreman, Eskandari, and Wright.
Kung, C. *See* Sukharev, Sigurdson, Kung, and Sachs.

L

Lacampagne, A., Ward, C.W., Klein, M.G., and Schneider, M.F. Time course of individual Ca^{2+} sparks in frog skeletal muscle recorded at high time resolution. 187.
Lambert, L.C. *See* Devor, Singh, Lambert, DeLuca, Frizzell, and Bridges.
LeBeau, A.P., Yule, D.I., Groblewski, G.E., and Sneyd, J. Agonist-dependent phosphorylation of the inositol 1,4,5-trisphosphate receptor: A possible mechanism for agonist-specific calcium oscillations in pancreatic acinar cells. 851.
Ledwell, J.L., and Aldrich, R.W. Mutations in the S4 region isolate the final voltage-dependent cooperative step in potassium channel activation. 389.
Lee, H.K., and Elmslie, K.S. Gating of single N-type calcium channels recorded from bullfrog sympathetic neurons. 111.
Lee, J.-K., John, S.A., and Weiss, J.N. Novel gating mechanism of polyamine block in the strong inward rectifier K channel Kir2.1. 555.
Leonard, D. *See* Eaholtz, Colvin, Leonard, Taylor, and Catterall.
Levitan, E.S. *See* Burke, Takimoto, Li, Han, Watkins, and Levitan.
Levitt, D.G. *Perspective:* Modeling of ion channels. 789.
Lewis, B.D. *See* Spalding, Hirsch, Lewis, Qi, Sussman, and Lewis.
Lewis, D.R. *See* Spalding, Hirsch, Lewis, Qi, Sussman, and Lewis.
Li, D. *See* Burke, Takimoto, Li, Han, Watkins, and Levitan.
Loo, D.D.F. *See* Zampighi, Loo, Kreman, Eskandari, and Wright.
López-López, J.R. *See* Pérez-García, López-López, and González.
Lu, X., Fein, A., Feinstein, M.B., and O'Rourke, F.A. Antisense knock out of the inositol 1,3,4,5-tetrakisphosphate receptor $GAP1^{IP4BP}$ in the human erythroleukemia cell line leads to the appearance of intermediate conductance K(Ca) channels that hyperpolarize the membrane and enhance calcium influx. 81.
Lu, Z., and Ding, L. Blockade of a retinal cGMP-gated channel by polyamines. 35.
Luvisetto, S. *See* Hivert, Luvisetto, Navangione, Tottene, and Pietrobon.

M

Machaca, K., and Hartzell, H.C. Reversible Ca gradients between subplasmalemma and cytosol differentially activate Ca-dependent Cl currents. 249.
Magleby, K.L. *See* Nimigean and Magleby.
Matthews, H.R. *See* Sampath, Matthews, Cornwall, Bandarchi, and Fain.
McCleskey, E.W. *Perspective:* Calcium channel permeation: A field in flux. 765.
Mejía-Alvarez, R., Kettlun, C., Ríos, E., Stern, M., and Fill, M. Unitary Ca^{2+} current through cardiac ryanodine receptor channels under quasi-physiological ionic conditions. 177.

Melliti, K., Meza, U., Fisher, R., and Adams, B. Regulators of G protein signaling attenuate the G protein–mediated inhibition of N-type Ca channels. 97.
Meza, U. *See* Melliti, Meza, Fisher, and Adams.
Miller, C. *Perspective:* Ionic hopping defended. 783.
—— *See* Monks, Needleman, and Miller.
Moczydlowski, E. *See* Favre and Moczydlowski.
Molokanova, E., Savchenko, A., and Kramer, R.H. Noncatalytic inhibition of cyclic nucleotide–gated channels by tyrosine kinase induced by genistein. 45.
Monks, S.A., Needleman, D.J., and Miller, C. Helical structure and packing orientation of the S2 segment in the *Shaker* K^+ channel. 415.
Morales, M.J. *See* Brahmajothi, Campbell, Rasmusson, Morales, Trimmer, Nerbonne, and Strauss.
Moraru, I.I., Kaftan, E.J., Ehrlich, B.E., and Watras, J. Regulation of type 1 inositol 1,4,5-trisphosphate–gated calcium channels by $InsP_3$ and calcium: Simulation of single channel kinetics based on ligand binding and electrophysiological analysis. 837.
Mullins, F.M. *See* Johnson, Mullins, and Bennett.

N

Navangione, A. *See* Hivert, Luvisetto, Navangione, Tottene, and Pietrobon.
Needleman, D.J. *See* Monks, Needleman, and Miller.
Nelson, M.T. *See* Pérez, Bonev, Patlak, and Nelson.
Nerbonne, J.M. *See* Brahmajothi, Campbell, Rasmusson, Morales, Trimmer, Nerbonne, and Strauss.
—— *See* Xu, Guo, and Nerbonne.
Nimigean, C.M., and Magleby, K.L. The β subunit increases the Ca^{2+} sensitivity of large conductance Ca^{2+}-activated potassium channels by retaining the gating in the bursting states. 425.
Nonner, W., Chen, D.P., and Eisenberg, B. *Perspective:* Progress and prospects in permeation. 773.

O

Ogielska, E.M., and Aldrich, R.W. Functional consequences of a decreased potassium affinity in a potassium channel pore: Ion interactions and C-type inactivation. 347.
O'Rourke, F.A. *See* Lu, Fein, Feinstein, and O'Rourke.

P

Paoletti, P., Young, E.C., and Siegelbaum, S.A. C-linker of cyclic nucleotide–gated channels controls coupling of ligand binding to channel gating. 17.
Pappone, P.A. *See* Wilson and Pappone.
Parker, I. *See* Callamaras and Parker.
Patlak, J.B. *Commentary:* Cooperating to unlock the voltage-dependent K channel. 385.
—— *See* Pérez, Bonev, Patlak, and Nelson.
Pérez, G.J., Bonev, A.D., Patlak, J.B., and Nelson, M.T. Functional coupling of ryanodine receptors to K_{Ca} channels in smooth muscle cells from rat cerebral arteries. 229.
Pérez-García, M.T., López-López, J.R., and González, C. Kvβ1.2 subunit coexpression in HEK293 cells confers O_2 sensitivity to Kv4.2 but not to *Shaker* channels. 897.
Pietrobon, D. *See* Hivert, Luvisetto, Navangione, Tottene, and Pietrobon.
Pizarro, G. *See* Shirokova, González, Kirsch, Ríos, Pizarro, Stern, and Cheng.
Pusch, M. *See* Saviane, Conti, and Pusch.

Q

Qi, Z. *See* Spalding, Hirsch, Lewis, Qi, Sussman, and Lewis.

R

Rasmusson, R.L. *See* Brahmajothi, Campbell, Rasmusson, Morales, Trimmer, Nerbonne, and Strauss.
Rayner, M.D. *See* Bao, Hakeem, Henteleff, Starkus, and Rayner.
Ríos, E. *See* Mejía-Alvarez, Kettlun, Ríos, Stern, and Fill.
—— *See* Shirokova, González, Kirsch, Ríos, Pizarro, Stern, and Cheng.
—— *See* Stern, Song, Cheng, Sham, Yang, Boheler, and Ríos.
Robertson, G.A. *See* Wang, Trudeau, Zappia, and Robertson.
